SUMMARY

Applied Data Science student at PENS and AI Engineer intern at a digital marketing agency for SMEs. I enjoy understanding how a business runs, mapping its processes, organizing its data, and turning both into practical recommendations. Leading student research and programs has taught me to plan work, coordinate people, and see it through.

EDUCATION

Bachelor of Applied Data Science | GPA 3.72 / 4.00 2024 – Present
Politeknik Elektronika Negeri Surabaya (PENS) Surabaya, East Java

- **Relevant coursework:** Business Analytics for Data Science, Data Warehousing, Database Systems, Data Management, Data Exploration & Visualization, Applied Statistical Analysis, Data Mining, Machine Learning

SKILLS

Data & BI: SQL (PostgreSQL, MySQL), Python (pandas, scikit-learn), Excel, Power BI, Tableau, Looker Studio

Data Engineering: Data warehousing (star schema, SCD Type 2), ETL (Pentaho, Python), Apache Airflow, Docker

Business & AI: Process mapping, KPI definition, SWOT, machine learning, LLM agents, FastAPI

Languages: Indonesian (native), English (intermediate)

EXPERIENCE

AI Engineer Intern Jul 2026 – Present
Ideola – Digital Marketing Agency for SMEs Surabaya (Hybrid)

- Mapped the agency's lead-to-project flow and compared tools to support its sales process.
- Built a WhatsApp sales-agent backend that reads client needs and drafts project backlogs.
- Maintain client websites in line with each client's service package.

PROJECTS

Warungku: Inventory & Procurement Platform for F&B SMEs Sep 2026 – Present
Data Analytics Project course – team of 4 github.com/YonoBengkel/Warungku

- Mapped how F&B SMEs move from sales data to stock levels, restock needs, and distributor orders.
- Defined user roles and permissions, then turned the process design into a working prototype.

Sales Data Warehouse: CRM & ERP Integration Jun 2026
Data Warehousing course – individual final project github.com/YonoBengkel/Medallion

- Integrated CRM and ERP sales data into one star-schema data warehouse with layered data cleaning.
- Built data marts for product profitability, customer demographics, sales trends, and top spenders.

Supplier Decision-Support Dashboard Mar 2026
Business Analytics course – team project supplier-procurement-analysis.streamlit.app

- Ranked competing suppliers per product using weighted criteria for price, turnover, and shelf life.
- Reviewed discontinued products to flag suppliers that sent expired stock or merit renegotiation.

LEADERSHIP & ORGANIZATIONS

Vice Head, Research & Education Department Jul 2025 – Present
IEEE PENS Student Branch Surabaya, East Java

- Lead the Research sub-division: set the research roadmap and manage members' assignments and progress.
- Leading a community-service project building a machine for farmer groups around Surabaya.

HIMIT PENS – Informatics Engineering Student Association Oct 2025 – Present

- **Steering Committee, Dynamic ITDS 2025:** designed the cadre program from its goals and set assessment parameters.
- **Staff of Legal Affairs, Member Representative Council:** monitor the executive board and its events for compliance.
- **Vice Coordinator, Election Committee:** deputized for the coordinator in running the association's general election.

ACHIEVEMENTS

Bronze Medal, Thailand International Mathematical Olympiad (TIMO) 2023
